

Dear Member,

The MCCA invites you to an informal gathering with Jonathan Warne, Head of Dispute Resolution at Nabarro, a UK-based international law firm which is the market-leader in research into the issues that confront today's General Counsel.

Jonathan leads Nabarro's GC programme which has released five ground-breaking reports over the last decade.

At a separate event, our General Counsel (GC) Forum to be scheduled soon, he will talk us through the findings of the latest report; "**General Counsel: Reaching New Heights?**" and will focus on the following talking points:

- the increasing scope of the GC role with many now taking on responsibility for compliance, regulatory and reputational issues;
- the degree to which GCs have increased their influence at Board level over the last five years;
- their long term career aspirations; and
- their position at the ethical heart of the boardroom in a post-Panama Papers world.

Jonathan Warne, Head of Dispute Resolution, Nabarro UK

At the GC Forum Jonathan will also guide us through the '**8C**' strategic counsel model to help GCs focus on strategic priorities which will propel them to the top-table.

Come and join us at this informal, yet informative, gathering at:

**Mai Bar, Aloft KL Sentral
28 February 2017
7:30pm onwards**

Please RSVP your attendance by 26 February via email to secretariat@mcca.com.my.

Looking forward to seeing you there.
